Isaiah 40 : 30-31

The central issue is that N.C.E.C. provides an ideal educative process for the recovering addict. The relatively small class groups ensure that the student benefits from individual tuition in all subjects. The teachers are dedicated and passionate about the subjects they teach.

A concluding incentive is that most schools are reluctant, and at times adamantly refuse to allow admission to a student who has a drug dependency history. The N.C.E.C., obviously does not consider this aspect a negative factor, and is there primarily to serve such students.

It is for the above-mentioned reasons that we urge you to consider enrolling your child in our program until he/she has completed their matriculation. After all, finally achieving, and finishing any course of action is a vital step in the recovery process.

It must, however, be stipulated that if a pupil misbehaves so badly that he/she is sent on discipline time and again we reserve the right to withdraw, said pupil, from school. They would be required to repeat the year of study. This is in the interests of not only the said pupil, but also protects those pupils who are applying themselves.

A further aspect is that N.C.E.C. is considering enrolling in the I.E.B. system of schooling. Further information will be forwarded to parents when available.

Yours faithfully,
P.A. ROUMANOF
F Principal

NOUPOORT CHRISTIAN EDUCATION COLLEGE

We are proud to welcome you to Noupoort Christian Education College. Like us you realise that your future security and prosperity depends on the training and qualifications you obtain today. You cannot afford to get left behind. We are a private school, registered with the Department of Education of the Northern Cape - so students are assured that they are studying through an institution that abides by the educational quality requirements of the government regulatory authorities, which stipulates that all students must be registered by 15 March latest. This now applies to registered student changing provinces as well. **We require a copy of their last school report (if this is not supplied we cannot register the student) as well as a copy of their I.D. document or birth certificate.**

COMPULSORY ONE YEAR

The Educational Programme is a one year compulsory programme for any Student who attends the Noupoort Christian Care Centre as the student has lost vital educational time by using drugs and substances; it would be a waste of time and money if the Student leaves Noupoort Christian Care Centre before they recover. This is a process that takes time and, therefore, you as a parent, guardian or sponsor must encourage the student to remain for the year to complete their recovery and educational programme. It is disruptive to all students should one pupil leave the Educational Programme before completing one year.

Further classes may occur on Tuesday and Thursday afternoons.

13. There will be no **ONE** one-on-ones between male and female students. There will be **NO** talking between **Male** and **Female** students. 16. **Note:** The School and Ministry reserve the right to take a pupil out of the school environment if their behaviour is detrimental to the other pupil's recovery. This will take the format of – if a student is sent to C.I. more than three times their school career is finished for the year.
